

Norwegian offshore contractor DOF Subsea ASA wins survey contract in India

2007-09-10 08:00:00 by Rons_ROV_Links

DOF Subsea ASA's subsidiary Geo Century Ltd, Aberdeen, has received a Letter of Intent to provide Survey and ROV services utilising SV *Geosounder*, in India. The SV *Geosounder* is a dedicated Survey Vessel fully integrated with deep/shallow water multi-beam echo sounder (MBE) for seafloor mapping and a light work class ROV system.

SV *Geosounder* will mobilise from Singapore to India for the project in mid-September.

The duration of the work on-site is approximately 45 days, and the Vessel will undertake various ROV and survey operations.

The contract value is estimated to be USD 3 millions.
