

Subsea 7 announces major contract in Africa

2008-07-14 12:00:00 by Rons_ROV_Links

Subsea 7, one of the world's leading subsea engineering and construction companies, announced today that it has been awarded its largest contract to date in Africa. The contract is a framework agreement with call-off services in support of a major development programme in offshore west Africa. Subsea 7 has signed the first call-off contract under the frame agreement with an estimated value of \$460m.

The services will primarily be performed using Subsea 7's new build flexible pipelay and construction vessel, the *Seven Seas*.
