

Mermaid extends subsea services to South America

2009-07-08 13:00:00 by Rons_ROV_Links

Mermaid Maritime Public Company Limited is pleased to announce that its wholly owned subsidiary Mermaid Offshore Services Ltd. (MOS), a leading provider of sub-sea engineering services to the offshore oil and gas industry, is presently providing offshore installation services in Brazil for Petrobras through a contract with Global Industries Brazil potentially worth US\$14-18 million.

The work involves saturation and air diving services supported by remotely operated vehicle (ROV) intervention, all utilizing the DP2 Dive Support Vessel *Mermaid Commander*.
