

## DTI grants Dana, Venture approval for Gadwall

2004-09-25 11:50:54 by ginamc

Dana Petroleum received the U.K. Department of Trade and Industry's approval to develop the the Gadwall oil field in block 21/19 of the Greater [Kittiwake](#) Area. The central North Sea acreage surrounds the Kittiwake production platform, in which Dana and Venture Production each have a 50-percent interest. Gadwall will be a sub-sea tie back to the Kittiwake platform and utilize a single producer-injector pair of wells. The suspended well will be completed to produce by year-end. First oil is expected by February. Dana estimates for Gadwell's proven and probable recoverable reserves are 7.3 million barrels of oil equivalent.
