DOF Subsea Norway AS has been awarded a Frame Agreement for Offshore Survey Services by Statoil.

DOF Subsea Awarded Frame Agreement and First Call-Off by Statoil

DOF Subsea Norway AS has been awarded a Frame Agreement for Offshore Survey Services by Statoil. The 4-year frame agreement with 2 x 1 year options includes services for light construction, ROV survey with MultiBeam Echosounder (MBE), ROV survey w/o MBE, acoustic survey, acoustic survey with ROTV, acoustic survey with AUV and acoustic survey with TowFish.

Statoil has also awarded DOF Subsea Norway the first Call-Off for light construction work on the Norwegian Continental Shelf. The minimum 6 month + 6 x 1 month option project will commence 1st March 2012 and will be executed from the survey/IMR vessel Geosund with onshore project support from our office in Bergen.
